

Check directions on thickener container for amount of thickener required.

Measure out Instant Food Thickener using a measuring spoon.
Use the back of a knife to level thickener for accurate amount.

Add thickener to chilled juice or beverage.

Stir with spoon or fork for 10-20 seconds until dissolved.

Allow product to sit for 1-3 minutes to reach full viscosity.

For thickening bulk quantities, use a wire whisk or blender.

To properly measure and mix Instant Food Thickener into beverages, you will need:

- ½ cup beverages
- Measuring spoons
- ReadyCare Instant Food Thickener
- Spoon or fork
